- Please note that empty container storage will not be available for materials that require forklift services. These empties must be taken off the property by the exhibitor, or material handling charges will apply.
- **Vehicles that bring materials requiring forklift service must be privately owned.**
- Vehicles may NOT remain on property to wait for packing materials. All vehicles are required to have a working driver's phone number and booth location noted on vehicle pass, as they are subject to being towed at owner's expense.
- Material handling rates will apply to all vehicles that require ramp space

MATERIAL HANDLING & CRATE STORAGE - THIS SERVICE MUST BE REQUESTED IN ADVANCE.

Option 1: Ship materials to Informa Services warehouse: Advance Rate will apply!

- Shipments received at Informa Services warehouse by the advance deadline date of September 20, 2024 will be delivered on-site near your exhibit space prior to your setup date and time.

Option 2: Ship materials directly to show site: Standard Rate will apply!

- Shipments received direct to show site must be delivered to show site 2 days prior to your scheduled setup date and time.
- Proof of insurance and appropriate CDL License, Class A or Class B will be required prior to getting your vehicle pass at staging. This is due to the ever-increasing cost of insurance and safety for all concerned.
- All carriers can go direct to 2150 SE 17th Street for unloading/reloading.

Important Note:

- **Material handling charges apply for both options.** Rates include all labor and equipment required to unload shipment, delivery to exhibit space, handling of empty containers to and from booth area, and reloading of shipment onto outbound carrier at the close of the event. **Option 1 also includes warehouse storage at no charge for 60 days prior to set-up time.**

For more information, please contact: claire.vandyk@informa.com

- If you choose to bring in your own materials to show site, and not use Informa Services you must make arrangements to remove your crates and packing materials. These materials can no longer have empty stickers purchased at show site. This is due to the large quantities of materials handled in advance and the inability to plan for these additional packing materials. **All vehicles are required to check into staging before allowed on the property.**
- Empty crate services are not provided for Personally Owned Vehicles (POV's) or self-unloaders.

EMPTY CRATES

Shipments received at Informa warehouse by the advance deadline date of September 20th will be placed in your exhibit space prior to your setup date.

All empty crates are required to be removed by Tuesday, October 29th – 10:00AM.

To accommodate move-out, we ask that you review and adhere to the following:

- An empty sticker must be applied to each container going into storage. Your Customer Success Team member will be distributing these to you during set up, however you will also be able to pick these up from Convention Services in the Credential Tent.
- Empties will no longer be stored for exhibitors bringing in their own materials. These empties must be taken off the property by the exhibitor or a Material Handling charge will apply.
- All empty containers (crates, boxes, fiber cases, etc.) are stored on trailers off the property.
- The return of empty containers will commence between Sunday night, November 3rd through Wednesday, November 6th.
- It is important to take note of your move out date for exhibitors with **no freight**, and for exhibitors **with freight** for when your designated carrier will be allowed on the property to pick up your shipment.
- CARRIERS will only be allowed on the property for shipment pickup on exhibitor freight designated move out date.
- Bills of lading and labels can be picked up at the Convention Services office in the Credential Tent. Once packed up, the completed Bill of Lading must be turned into the office for proper shipping of your freight.
- While Informa will take every precaution with all crated material, empty or full, each exhibiting company should maintain proper insurance coverage for all exhibit material. As this is an outdoor event, inclement weather is possible. It is solely your responsibility to cover or otherwise protect your freight from any such unexpected occurrences.
- If it is your preference to use a carrier other than the preferred carrier, AERONET WORLDWIDE – it is your responsibility to make the necessary pickup arrangements and a completed bill of lading must be turned in at the Convention Services office in the Credential Tent for all shipments.
- In the event any shipment must be returned to our warehouse for shipping out (the specified carrier did not show, paperwork was completed incorrectly or not at all, etc.), there will be a return to warehouse charge per shipment. This charge must be settled before Informa will release the shipment to any carrier.

- **Early Arrivals In-Water:** It may be possible to accommodate some boats earlier than the time scheduled. If you would like to bring your boats to the Show early, please contact Dean Fillichio at (954) 541-1721 or Scott Cohen at (786) 330-2160.
- **Superyacht Village:** Report directly to your in-water assigned slip at your designated set-up time. A Set-up official will be on hand to assist you.
- **Multi-Boat Land Displays:** We ask that you assemble all your boats at the staging area prior to your scheduled appointment. This will allow your truck to pick up a boat from staging, drop it off at the Show site and return for the next boat in the shortest possible time.
- **Unloading Boats:** If you require the off-loading of boats there is no charge for this service. An Exhibit Coordinator from your company must be present so he can advise us of the proper rigging and supervise the unloading and loading of your boats. Any boats handled without Exhibit supervision is not the responsibility of Informa Markets if damages occur.
- **In-Water Set-up:** Boats must be in place prior to the "Move-in Deadline" listed on the Set-up Schedule for In- Water Exhibits. It is extremely important that you make special note of the Set-up schedule for your exhibit. After this time, the floating docks will be put in place and it will be **impossible for any boat to go in or out until Monday, November 4th. PLEASE BE ON TIME.** Remember that there are boats assigned to the removed sections of the floating docks and these Exhibitors cannot prepare for the Show until the sections are in place.
- **Dock Preservation:** Informa has made a substantial investment in new docks to provide a better boat show experience for our exhibitors and attendees alike. In order to be sure these docks last, exhibitors are not allowed under any circumstances to drill or screw into the new plastic/synthetic wood deck boards. During the show, the docks will be inspected. Any exhibitor to be found non-compliant and to have drilled, screwed, or otherwise secured materials to the new synthetic docks, will be fined \$500 per damaged plank. There are alternative ways of securing into the docks without causing permanent damage.
- For flag-pole base alternatives available please contact your sales representative. Use of any alternative method to secure docks must be approved in advance.

KEY REMINDERS:

- When arriving by boat, please obey posted speed limits and use proper boating safety rules and regulations.
- PLEASE be on time for your scheduled appointment.
- Familiarize all personnel with procedures.
- Please be patient.
- PLEASE BRING AN ABUNDANT SUPPLY OF LONG LINES AND FENDERS AS WE DO NOT PROVIDE ANY

IN-WATER EXHIBITS

Please make note of your specific “Move-Out Time” on the Breakdown Schedule. Due to our contract requirements with Bahia Mar (which includes considerable financial penalties for late removal of the show), we must insist on your cooperation. Boats not removed on a timely basis will be towed and placed in storage at the Exhibitor’s expense. The floating docks will be opened as early as possible on Monday, November 4th. It is suggested that those Exhibitors inside the floating docks plan to remove their boats beginning early Monday morning. It is requested that you transport as much of your exhibit materials as possible from the show grounds by boat. It will be much easier for you, and a great help to those Exhibitors with Land and Booth displays if you can avoid bringing a vehicle on to the show grounds. Should it be necessary for you to have a vehicle on the show grounds during breakdown, please remember to check in at the staging area first, before you go to the show-site.

SECURITY RECOMMENDATIONS

As you acquired insurance coverage to protect your exhibit and product(s) against damage or loss, here are additional tips to keep in mind.

- Unpack product as close to the show opening as possible. At the close of the show, we suggest that you stay at your booth until these valuables are repacked.
- Treat especially valuable goods such as prototypes as irreplaceable. If they truly are one-of-a-kind, hire your own security guard. Under no circumstances should such goods ever be left unattended. Flat Screens, televisions, DVD's, laptops, and other electronic devices are particularly vulnerable to theft.
- Remove tapes or discs at night and store them in a safe place. Keep close tabs on personal items (cell phones, purses, laptops, briefcases, etc.)
- Do not put articles of any value in a container marked "Empty Storage", or behind the booth.
- At the close of business each day, cover all display tables. This establishes a barrier to curiosity seekers and other would-be-thieves from selecting such items to steal later.
- Any suspicious activity or the presence of unauthorized visitors should be reported immediately to the Show Office or to security.

All exhibitors should arrange complete property coverage for the value of their exhibit and exhibit contents. It is understood and agreed by attending the event that Informa does not provide property liability. Should a property loss not limited to property damage or property theft occur at the event, Informa's maximum liability is \$500.00 total for the event.

BEST MANAGEMENT PRACTICES

Discharge of Sewage from Vessels (excludes "Gray water"): Marine facility operators shall advise all tenants of the following: It is illegal to discharge sewage from vessels into the waters. Illegal discharge of sewage from vessels is subject to stiff fines and repercussions.

Waste Oil: This includes waste engine oil, transmission fluid, hydraulic oil, and gear oil. Waste oil must be stored in non-leaking container clearly marked "waste oil" on an impermeable surface and covered in a manner that will prevent rainwater from entering the container. Oil spills must be removed from the site by a permitted waste oil transporter and receipts retained for inspection.

New Oil: This includes new engine oil, transmission fluid, hydraulic oil, and gear oil. These petroleum products must be kept in non-leaking containers on an impervious surface and covered in a manner that will prevent rainwater from entering the container. Leaking containers must be emptied promptly upon detection, either by transferring the product to a non-leaking container or by disposing of it in the "waste oil" container.

Anti-Freeze Engine Coolant: Anti-freeze is considered a hazardous product and when drained from an engine, it must be stored in a clearly marked container on an impervious surface, under cover. It cannot be disposed of down a storm drain or sanitary sewer. It must be removed from the site by a permitted liquid waste transporter, and receipts must be retained for inspection. Care must be taken in handling these products and spills cleaned up promptly at the time detected.

Bilge Wastewater: Bilge wastewater and "gray" water that is not contaminated by oil, fuel or other regulated containment's may be discharged onto surface waters or on land. Federal, state and local regulations prohibit the discharge of bilge wastewater and "gray" water that is contaminated by oil, fuel or other regulated containments. Boat owners shall be liable for complying with these regulations. "Gray" water shall mean wastewater from galley operations (dishwashing) and from hand basins and showers.

Used Lead-Acid Batteries: These must be stored on an impervious surface, under cover, and sent to or picked up by an approved recycler. Receipts must be retained for inspection.

Pressure Cleaning: The use of high or low-pressure water cleaning equipment for the initial rinse-off of a vessel hauled from the water is acceptable. However, any accumulated algae, oyster or barnacle build-up must be properly collected and disposed of in the regular trash. The use of this equipment to remove bottom paint from hulls shall be restricted to an area with an impervious surface, where the wastewater shall be contained, collected, and treated to remove paint solids to meet the sanitary sewer standards. If standards are not met, further treatment will be required prior to discharging to the sanitary sewers.

Washing by Hand Above Waterline: Detergents and cleaning compounds used in washing boats shall be biodegradable. The waste water generated by washing boats by hand shall not be considered an "industrial waste" or "other waste" as defined in chapter 24.

Sanding Hull or Topsides with Power Tools: Permitted facilities shall set and enforce their own rules regarding the use of power sanding tools. However, the sanding dust generated by this activity must be swept up and disposed of with the regular trash and may not be intentionally discharged into a storm drain or onto surface waters.

Waste Gasoline: Must be stored in a non-leaking container or impervious surface and covered to prevent rainwater from entering the container. The container must be clearly labeled "waste gasoline" and the storage location must conform to local Fire Codes. Whenever, possible waste gasoline shall be filtered and used as fuel. Waste gasoline shall not be discharged to the ground, storm sewers, or to surface waters. Waste gasoline must be removed from the site by a waste transporter permitted to handle this waste product and receipts must be retained for inspection.

Waste Diesel, Kerosene, and Mineral Spirits: These must be stored in non-leaking containers on an impervious surface and covered to prevent rainwater from entering the container. Each container must be clearly labeled with its contents. The storage locations shall conform to local Fire Codes. The disposal of these waste products must be by a waste transporter permitted to handle such wastes, and receipts must be retained for inspection. Waste petroleum products shall not be discharge to the ground, storm sewers or to the surface waters.

Grease: Spilled or waste grease shall be collected and put into the waste oil container. Residues remaining on the ground may be absorbed with "spill-dry" or a similar product and disposed of with the regular trash.

FLORIDA TAXATION OF BOAT SHOW EXHIBITORS: SALES/USE TAX

GENERAL RULES

A **seven percent** sales tax is imposed on every “retail sale” of tangible personal property within Broward County, Florida. Some counties impose additional local optional or discretionary surtaxes: 6.5%, 7% etc. “Retail sales” include sales that take place in Florida and “mail order sales” by companies who are required to register as dealers under Florida’s sales tax law.

A “dealer” is any person who, among other activities, does the following:

- 1) sells tangible personal property;
- 2) solicits sales of tangible personal property;
- 3) leases tangible personal property;
- 4) sells, provides, or performs a taxable service; or
- 5) imports tangible personal property for use, consumption, distribution, or storage.

Sales tax is not imposed on “sales for resale,” that is, sales to persons or companies who themselves are registered as Florida sales tax dealers and purchase the item for resale. A dealer who makes a “sale for resale” to another dealer must obtain and keep on file a Florida resale certificate from the purchaser to document the exempt status of the sale. If a company makes sales in Florida, including sales at a boat show, it must register as a dealer with the Florida Department of Revenue (DOR) and must collect sales tax on its sales or obtain and keep on file Florida resale certificates. If it is required to be registered as a dealer with the DOR, a company must collect sales tax on Florida sales and must submit monthly sales tax returns and remittances to DOR. If an article of tangible personal property is brought into Florida and is subject to use tax, the DOR will allow credit for sales or use taxes paid to another state, U.S. territory or the District of Columbia. Credit cannot be given for taxes paid to another country. Purchasers who cannot show that Florida’s or another state’s sales tax has been paid at rate equal to or greater than Florida’s rate) upon the purchase of tangible personal property must pay use tax on the cost of the item. **Please Note:** The following examples are based upon the premise that an out-of-state exhibitor’s only presence in Florida is attendance at no more than a few Florida boat shows. Any additional presence or activities conducted by out-of-state exhibitor within Florida may result in different answers to some of the examples.

Sales at Boat Show for Immediate Delivery

Exhibitor Who Makes Only Retail Sales at Boat Show: An out-of-state exhibitor attends a Florida boat show. Boats or accessories are sold or delivered at the show only to retail customers. This exhibitor must register with the DOR as a dealer, collect the sales tax on all retail sales made at the show, and file monthly sales tax returns.

*Exhibitor Who Makes Only Wholesale Sales at Boat Show: **An out-of-state exhibitor attends a Florida boat show. Boat or accessories are sold or delivered at the show only at wholesale to persons who are registered as sales tax dealers. If the exhibitor has signed an Exhibitor’s Agreement, which prohibits it from making retail sales but allows it to make wholesale sales, the exhibitor is not required to register with the DOR as a dealer, or collect tax on the sales, because only sales for resale are made. If the exhibitor has not signed an Exhibitor’s Agreement, the exhibitor must register with the DOR as a dealer. In either case, the exhibitor must obtain and keep on file Florida resale certificates from the purchaser to document the exempt status of the sales.***

Exhibitor Who Makes Both Retail and Wholesale Sales at Boat Show: An out-of-state exhibitor attends a Florida boat show. Boats or accessories are sold or delivered at the show both on a retail and wholesale basis. This exhibitor must register with the DOR as a dealer, collect the sales tax on all retail sales made at the show, and file monthly sales tax returns remitting the tax on such sales. Florida resale certificates must be obtained and kept on file from all wholesale purchasers, to document the exempt status of those sales.

Sales at Boat Show for Future Delivery outside Florida

Exhibitor Who Takes Order at Show for Future Delivery Outside Florida: *An out-of-state exhibitor attends a Florida boat show. Orders are taken for boats or accessories at the show for future delivery to an address outside of Florida. These orders are subject to acceptance or rejection at the exhibitor's home office following an appropriate credit check, etc. The exhibitor is not required to collect the sales tax on these transactions, whether the exhibitor is registered as a Florida dealer or not.*

Sales at Boat Show for Future Delivery in Florida

Exhibitor Who Takes Orders at Show for Future Delivery in Florida But Does Not Receive Full Payment at the Show: *An out-of-state exhibitor attends a Florida boat show. Orders are taken for boats and accessories at the show for future delivery to a Florida address.*

Case A: The Purchaser makes a deposit or partial payment at the boat show. The balance of the purchase is paid to the exhibitor after the exhibitor returns to the home office, for example, by wire transfer or by check mailed to that office. The exhibitor is not required to collect the sales tax. This transaction is completed outside Florida and is not treated as a Florida sale. The purchaser is required to pay a use tax upon receipt of the boat or accessories.

Case B: The purchaser pays for the goods by credit card. The credit card transaction is processed for authorization at the exhibitor's home office after the conclusion of the show. The exhibitor is not required to collect the sales tax. This transaction is completed outside Florida and is not treated as a Florida sale. The purchaser is required to pay a use tax upon receipt of the boat or accessories.

Exhibitor Who Takes Orders for Future Delivery in Florida But Does Receive Full Payment at the Show

An out-of-state exhibitor attends a Florida boat show. Orders are taken for boats or accessories at the show for future delivery to a Florida address. The purchaser completes payment for the goods in Florida, either by cash, a check for the full purchase price, or a credit card for which authorization is obtained during the show. This exhibitor is not required to collect the sales tax on these transactions, even if the exhibitor is registered as a dealer. The purchaser is required to pay a use tax upon receipt of the boat or accessories.

Sales After the Show to Florida Residents

Exhibitor Receives Post-Show Telephone or Mail Orders from Florida: *An out-of-state exhibitor attends a Florida boat show. After the exhibitor returns home, orders are received by telephone and mail for boats or accessories to be shipped to Florida. This exhibitor is not required to collect the sales tax on these transactions, even if the exhibitor registered as a dealer. The purchaser is required to pay a use tax upon receipt of the boats or accessories.*

A Florida Resident Visits the Manufacturer's Plant after a Show and Places an Order for Delivery into Florida: *An out-of-state exhibitor attends a Florida boat show. After the exhibitor returns home, a Florida resident visits the plant and places an order for delivery into Florida. The exhibitor is not required to collect the sales tax on this transaction, even if the exhibitor has been required to register as a Florida dealer because of the boat show activities. The seller must document that the purchaser was physically present at the plant when the sale was made to avoid any question about the tax status of the transaction. The purchaser is required to pay a use tax upon receipt of the boat or accessories.*

Related Issues

In addition to liability for Florida sales tax, exhibiting at a Florida boat show may trigger liability for one or more of the following:

- payment of Florida corporate income tax
- payment of Florida intangible property tax
- qualification as a foreign corporation with the Florida Secretary of State

The following is a general summary of these requirements:

Florida Corporate Income Tax (Chapter 220, Florida Statutes)

An out-of-state corporation whose only activities in Florida during its taxable year consists of attending boat shows and soliciting orders *that are approved or rejected outside Florida* (e.g., are approved at the exhibitor's home office after a credit check) and are filled by shipment or delivery from outside Florida is not subject to the Florida corporate income tax. If an out-of-state corporation sells and delivers boats or boating accessories at a Florida boat show or *solicits and approves orders* at a Florida boat show for future delivery into Florida, may be subject to the Florida corporate income tax. Except in limited circumstances, an S-Corporation is not subject to the Florida corporate income tax, regardless of the extent of its activities in the state.

Florida Intangible Property Tax (Chapter 199, Florida Statutes)

A person who transacts business in Florida and on January 1 has receivables derived from business in the state, is liable for Florida intangible tax on the value of those receivables. An out-of-state person whose boat show activities are considered business regularly conducted with customers in Florida will be subject to this intangible tax. The tax return is due by June 30th.

Qualification with Secretary of State as Foreign Corporation (Section 607.1501, Florida Statutes) An out-of-state corporation whose only activities in Florida consist of soliciting boat show orders *that are approved or rejected outside Florida before they become contracts* (e.g., are approved at the exhibitor's home office after a credit check) is not required to register with the Florida Department of State as a foreign corporation. If an out-of-state corporation sells and delivers boats or boating accessories at a Florida boat show or *solicits and approves orders* at a Florida boat show for future delivery, then it may be required to register as a foreign corporation.
